

Dear Participant,

My name is Stacey Lim, and I am an Assistant Professor of Audiology at Central Michigan University. My collaborators, Donald M. Goldberg (Professor, The College of Wooster) and Carol Flexer (Professor Emeritus, The University of Akron), and I would like to invite you to participate in an online survey for Auditory-Verbal graduates who are 18 years of age and older.

We are collecting information about Auditory-Verbal Graduates' demographic data, such as gender, age, education, employment, and language use. There are also questions related to hearing health and hearing technology, social connectedness (e.g., social involvement, bullying), and past involvement in Auditory-Verbal Therapy. The findings from this research study will provide parents and professionals with more complete information about the long-term outcomes, spoken language habilitation, overall status, and "environment" of graduates of the Auditory-Verbal approach.

If you decide to participate in this research study, "Current Outcomes of Auditory-Verbal Graduates," you will answer questions about your hearing health, hearing technology, education, employment, language use, social connectedness, and involvement in Auditory-Verbal Therapy. Participation in this research study is completely voluntary, and there is no compensation for participating. This questionnaire will take approximately 10-15 minutes of your time.

You can choose to participate in this research study or not to participate in this research study. If you have any questions about the study, please contact Stacey Lim at lim3s@cmich.edu or at 989-774-1321. To proceed to the study, please click on the following link: <https://www.surveymonkey.com/r/9VDB5BS>

Thank you for your consideration,
Stacey Lim, Au.D., Ph.D., CCC-A
Donald M. Goldberg, Ph.D., CCC-SLP/A, LSLS Cert. AVT
Carol Flexer, Ph.D., CCC-A, FAAA, LSLS Cert. AVT
